

Pride Ambassador's Perspective

by 27-E1 VDG Ray Stanley

Mary Lou and I decided to join the Pride Campaign after visiting the Lions Camp.

God has been very good to us - we have five children and five grandchildren, all are very healthy.

Most special needs children have a very challenging life to look forward to. These children

did not choose to be born with disabilities; Lions Camp gives these remarkable children something to look forward to each year.

As costs to operate the camp continue to rise each year Mary Lou and I felt that the very least we could do is help raise and give funds to the Pride Campaign so that the camp may continue to function as a free camping

experience for all those children we serve and will serve in the future. By having the WLF Lions Pride Permanent Endowment Fund where the interest will allow the camp to continue for many years.

The Lions Camp is Wisconsin Lions shining light and must be able to shine brightly for the children with special needs of future generations.
